

DOWD BENNETT LLP OPENS OFFICES IN BOSTON, DENVER

FOR IMMEDIATE RELEASE:

Dowd Bennett is pleased to announce that it has opened offices in Boston and Denver. After litigating cases nationally from its home office in St. Louis for more than a decade, Dowd Bennett will now establish a permanent presence in these geographic markets to better serve increasing client needs and demand for legal services in the Western and Eastern United States. Dowd Bennett already has substantial trial experience in both regions, having obtained favorable jury verdicts and arbitrator decisions in Boston and Denver in recent years for clients in the accounting, healthcare, and energy industries.

Founding partner Ed Dowd stated, “We are excited about our ability to serve clients on a larger scale and equally proud of the growth of our firm. We have excellent attorneys in Boston and Denver who will continue to provide outstanding representation and advice to our clients.”

The Boston office has been opened by long-time Dowd Bennett litigator Erika Anderson, who observed, “Dowd Bennett’s exponential growth has necessitated opening an office on the East Coast and I am privileged to be part of this expansion to meet our clients’ needs.” Erika spent two years as an assistant attorney general in the Massachusetts Attorney General’s office where she added to her already extensive trial experience.

Veteran trial-attorney Matt Johnson joined Dowd Bennett as a Partner last year to open its Denver office, along with Counsel, Kim Berve. “It is an honor to be a member of Dowd Bennett and part of its growth strategy beyond St. Louis,” Matt said. “There is great demand for exceptional legal representation in the Western part of the country, especially the ever-growing and vibrant Denver community. I am proud to help Dowd Bennett expand its Midwest, client-focused and results-driven philosophy by establishing a permanent physical footprint in Denver.”

Founding partner Jim Bennett emphasized, “Erika and Matt are first-rate attorneys with exceptional track records. They bring a wealth of trial experience and knowledge to our firm which will greatly benefit our clients in St. Louis, Boston, Denver, and beyond.”
